

California Department of Fish and Game Deer Management Program 2003 Deer Zone Information

Wildlife Programs Branch
1812 9th Street Sacramento, CA 95814

Northern California and North Coast Region

General Deer Hunting Information For

ZONE C-1

and

Area-Specific Archery Hunt A-1

(No Additional Hunts Scheduled)

GENERAL INFORMATION FOR DEER HUNT ZONE

This information sheet has been prepared to assist deer hunters applying for, or planning to hunt in, Zone C-1 located in portions of Siskiyou County. The following information should be useful to hunters for archery season (A-1; C Zones Archery Only), general season (C Zone Tag), and "additional hunts" within this geographic area. For more specific information or additional questions regarding this area contact the Northern California and North Coast Region Office, 601 Locust Street, Redding, CA 96001 (530-225-2300).

REGULATIONS

Laws and regulations are designed to conserve wildlife and to provide for an equitable distribution of game mammals. The hunter who knows the laws and regulations can enjoy the hunting experience more. All hunters should read and be familiar with the current hunting regulations available online at:

http://www.dfg.ca.gov/fg_comm/2003/mammalregs03.html

The 2003 deer hunting regulations specific for Zone C-1 (C Zones general season tag), Area-Specific Archery Hunt A-1 (C Zones Archery Only Tag), and any additional hunts are at the end of this sheet. Season dates vary between "C" zones, so be sure to check the current regulations for the "C" zone(s) you plan to hunt.

To hunt deer during the archery season in Zone C-1, hunters must possess an A-1 hunt tag (C Zones Archery Only Hunt). This tag is valid in any "C" zone (C-1, C-2, C-3 or C-4), but **ONLY** during the prescribed archery season for that zone. These tags **may not** be used to hunt deer during the general zone season, even with archery equipment.

To hunt deer during the general season (rifle) in Zone C-1, a hunter must possess a "C" Zones tag (C Zones general season). This tag is valid in any "C" zone (C-1, C-2, C-3 or C-4), but **ONLY** during the prescribed general season for that zone. These tags **may not** be used to hunt deer during the Hunt A-1 archery season, even with archery equipment.

Any additional deer hunts in Zone C-1 are listed in the Additional Deer Hunts section, below. Typically, tags for additional deer hunts are in high demand and distributed through the Department's Big Game Drawing held in June. To receive tags for many of these hunts, hunters must plan ahead and are encouraged to submit deer tag applications by late May. For information regarding deer tag application

procedures and obtaining a deer tag for this area see the Big Game Hunting Booklet, available on-line at: <http://www.dfg.ca.gov/licensing/biggame/biggamebook.html>

Successful hunters are reminded to immediately fill out both portions of the tag and permanently mark the date of kill; record the appropriate "C" zone (Zone C-1, C-2, C-3 or C-4) where they killed their buck; attach the tag to the antlers, or ear if antlerless; have the tag validated and countersigned; and return the completed report card portion to the department within 30 days of taking a deer.

LAND OWNERSHIP/PUBLIC LAND OPPORTUNITIES

Zone C-1 contains a mixture of both public and private lands. Remember you must obtain and have in your possession written permission to hunt on private property. Hunter trespass laws are strictly enforced. Public lands within Zone C-1 are administered by the Klamath and Shasta-Trinity National Forests (USFS) and the Bureau of Land Management (BLM). For information regarding these lands contact the following:

USFS Offices:

Klamath National Forest, 1312 Fairlane Road, Yreka, CA 96097-9549 (530-842-6131)

Shasta-Trinity National Forest, 2400 Washington Avenue, Redding, CA 96001 (530-244-2978)

BLM Offices:

Redding Field Office, 355 Hemsted Drive, Redding, California 96002 (530-224-2100)

In Zone C-1 and other zones throughout California, additional deer hunting opportunities may exist on private property licensed through the Department's Private Lands Management Program (PLM). For more information on the PLM and to obtain a list of participating ranches, go to the following link:

<http://www.dfg.ca.gov/hunting/deer/plm.html>

MAPS

For general maps detailing individual zone or additional deer hunt boundaries, go to the following link:

http://www.dfg.ca.gov/hunting/deer/deer_maps.html

The most comprehensive maps of the area are the National Forest maps. USFS maps are available at all USFS offices or you can contact the USFS Pacific Southwest Regional Office at: 1323 Club Drive, Vallejo, CA 94592 (707-562-8737).

BLM surface management maps may also be useful. However, because Zone C-1 covers such a large area, several maps are needed to depict it entirely. BLM surface management maps for Zone C-1 include the Mount Shasta, Tule Lake, and Yreka maps. You can purchase all of these maps or limit your purchase to only those areas you plan to hunt. BLM maps are available at BLM district offices or you can contact the BLM at 2800 Cottage Way, Room E2841, Sacramento, CA 95825 (916-978-4400).

U.S. Geological Survey (USGS) topographic maps, are very helpful, especially for topographic features that are not displayed on USFS or BLM maps. USGS maps may be available from sporting goods, backpacking or engineering stores or you can contact the USGS directly at: U.S. Geological Distribution Center, Denver Federal Center, Box 25286, Denver, CO 80225 (888-ASK-USGS).

ACCESS/MAJOR ROADS

Although there is a lot of private land in Zone C-1, there are extensive tracts of public lands with excellent access. Primary roadways in Zone C-1 are Interstate 5 (western C-1), and State Highway 97 (eastern C-1). Many County, USFS and BLM roads branch off of these primary roadways providing access to public lands. However, from August 15th through March 31st there are Road Closure Management Area restrictions on certain USFS roads administered by the Goosenest Ranger District, 37805 Highway 97, Macdoel, CA 96058 (530-398-4391).

WEATHER CONDITIONS/TRAVEL TIPS

The weather in this region is highly variable so BE PREPARED. The weather is usually quite hot and dry,

but early storms are not uncommon. Snow fall will be a rare occurrence with these storms but heavy rains can make many roads very difficult, if not impossible, to travel. You should be prepared with appropriate clothing and equipment for a variety of weather conditions.

Zone C-1 covers a large geographic area. The terrain can be very steep and rugged and vegetation can be extremely dense. As you should do in all remote areas, hunters are urged to bring a shovel, a good spare tire, extra water, etc. Use care with any off-road vehicle and check with the BLM or USFS for rules and regulations regarding vehicle and travel restrictions in the area. Horses can be useful in some portions of C-1. However, remember that it may be necessary to carry supplemental horse feed into the back country. Contact the local USFS and/or BLM office for more information regarding forage conditions for livestock.

CAMPING

There are numerous designated campgrounds within Zone C-1. The facilities available at these campgrounds vary from primitive campsites to campsites with running water and showers. Most campgrounds are clearly marked on USFS and BLM maps. Camping outside of designated campgrounds is usually permitted on BLM and USFS lands. However, during fire season special regulations may apply and it will be necessary to obtain a fire permit from the USFS or BLM. You can also check with the California Department of Forestry and Fire Protection office for rules in specific areas.

Please, DO NOT CAMP at springs or other water sources important to wildlife and livestock. Remaining at artificial wildlife water sources (guzzlers) can be a Fish & Game violation. YOU can pack water, wildlife can't!

HARVEST INFORMATION

Information on deer harvest for this area is available in tables contained in the annual Deer Kill Reports available on-line at: <http://www.dfg.ca.gov/hunting/deer/deerhunt.html> The most useful tables for the purposes of planning or applying for hunts in this area are Tables 1b (Harvest and Success Information), 2a (Antler Class Information) and 10b (Drawing Statistics).

HERD CONDITIONS AND HABITATS

The deer population in Zone C-1 is considered stable to slightly declining, yet considerably below levels seen in the late 1960's and 1970's. As with most deer herds in California and other western states, the long-term population trend has been on a steady decline since the 1960's and 1970's. These long-term declines have been due to land management practices that have precluded fire, resulting in changes toward more mature and less diverse habitats, and reduced quality and quantity of deer habitats. Short-term fluctuations in deer populations are usually attributed to weather events that affect forage production.

The subspecies of deer inhabiting Zone C-1 are primarily Columbian black-tailed deer, however some Rocky Mountain mule deer are found in the eastern portion of the zone. The deer in Zone C-1 are generally considered resident deer. That is, their movement is up and down the slopes, they do not make long seasonal migrations. The deer in this area generally move to higher elevations in early May and will remain there until the first heavy fall storms force them down below the snow line. This downward movement often occurs during the hunting season, so hunters should be prepared to move to lower areas later in the season after stormy weather.

The vegetation is highly varied throughout Zone C-1 ranging from chaparral, sagebrush, juniper and hardwood-conifer to dense conifer habitats. Generally speaking, deer populations in this area respond favorably to vegetation disturbances that enhance brush species (wildfire and timber harvesting). Riparian areas (areas along watercourses), recently burned areas or clear cuts that have re-sprouted with brush are good areas to hunt. Areas where oaks are producing acorns may also attract deer. Typically, lower densities of deer are observed in the more densely forested areas or in older, more decadent brushlands.

HUNTING TIPS AND WHERE TO LOOK FOR DEER

Successful hunters often spend a considerable amount of time scouting pre-season, locating individual or

groups of deer, recently used deer trails, and feeding and bedding areas. You may not see many deer from the roads in this area and generally the more successful hunters do more hiking to locate deer. Binoculars and/or spotting scopes can be very helpful for locating and identifying deer at greater distances. In general, attempt to hunt areas that are away from other activities such as concentrations of hunters, vehicles, and/or livestock.

Generally, the best hunting is near stands of bitterbrush, mountain mahogany, and tall sagebrush. Historically, some of the more popular areas in Zone C-1 include: Bald Mountain, Ball Mountain, Bear Creek, Black Mountain, Bogus Burn/Mountain, Butte Mountain, Camp Creek, Dead Horse Summit, Dorris Hill, Eagle Rock, Goosenest, Grass Lake, Herd Peak, Horseshoe Ranch WLA, Indian Point, Iron Gate Reservoir, Jenny Creek, Lodge Pole Station, Martins Dairy, McGavin Peak, Miller Mountain, Shovel Creek, Sloan Butte and Willow Creek/Mountain.

For additional information about deer hunting in California, see the Department's publication "Guide To Hunting Deer In California" at the following web site:

<http://www.dfg.ca.gov/hunting/deer/deerguide.pdf>

ADDITIONAL DEER HUNTS

In 2003, there are no additional deer hunts scheduled in Zone C-1.

2003 ZONE AND ADDITIONAL HUNT SPECIFIC REGULATIONS

§ 360. Deer.

Except as otherwise provided in this Title 14, deer may be taken only as follows:

(a) A, B, C, and D Zone Hunts.

(3) Zone C.

(A) Area: Shall include all of Zones C-1, C-2, C-3, and C-4 (see subsections 360(a)(3)(A)1. through 4.).

1. Zone C-1.

In that portion of Siskiyou County within a line beginning at the California-Oregon state line and its intersection with Interstate 5; south on Interstate 5 to Highway 97 at Weed; north and east on Highway 97 to the intersection with the California-Oregon state line; west on the California-Oregon state line to the point of beginning.

(B) Season: The seasons for the C Zone shall be those specified for the areas described as C-1, C-2, C-3, and C-4 (see subsections 360(a)(3)(B)1. through 4.).

1. Zone C-1.

The season in Zone C-1 shall open on the third Saturday in September and extend for 30 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 11,000. Zone C tags are valid in Zones C-1, C-2, C-3, and C-4 during the general season only as described above in subsections 360(a)(3)(B)1. through 4.

§ 361. Archery Deer Hunting.

(b) Archery Hunting With Area-specific Archery Tags. Deer may be taken only with archery equipment specified in Section 354, only during the archery seasons as follows:

(1) A -1 (C Zones Archery Only Hunt).

(A) Area: Shall include all of Zones C-1, C-2, C-3, and C-4 as described in subsections 360(a)(3)(A)1 through 4.

(B) Season:

1. Zone C-1. The archery season for Zone C-1 shall open on the third Saturday in August and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 2,500. A -1 (C Zones Archery Only Hunt) tags are valid in Zones C-1, C-2, C-3, and C-4 only during the archery season as specified above in subsections 361(b)(1)(B)1 through 4.

**** GOOD LUCK! ****
